POLITICAL CARICATURE

	<p>Have you ever heard the expression "A picture is worth a thousand words"? A caricature exaggerates to tell a story or to make a political point.</p>
<p>Political cartoonists often exaggerate - usually George W. Bush is drawn with large ears and no chin, and Senator John Kerry is often drawn with a long chin and big hair.</p>	<p>We'll use Photoshop software to create political caricatures just by changing a photo - NO DRAWING REQUIRED - then we'll morph the caricatures frame-by-frame.</p>
	<p>We'll Open Photoshop Elements</p> <p>Click File—Open and choose which picture you want to caricature.</p>
	<p>Click on Filter—Distort—Liquify.</p>
 <p>Warp</p> <p>Turbulence</p>	<p>You'll see a lot of tools at the left.</p>

 Clockwise Twirl  Counter-clockwise Twirl  Pucker  Bloat  Shift Pixels  Reflection  Reconstruct Tool	 <p>We'll learn them all.</p>
	<p>For fun, let's use the Warp  tool and liquefy, with a result sorta like this:</p>
<p>Now look at the menu on the right - you can choose to Revert</p> 	<p>When you click the Revert button, the picture will go back to the beginning.</p> 
	<p>Warp  again, and this time use the Reconstruct Brush  to revert just parts of the picture.</p>

 	<p>The Turbulence Tool </p> <p>scrambles the pixels - use it to push back a hairline...</p>
	<p>Use the Twirl tools   to make weird eyes and a crooked nose...</p>
 	<p>Use the Pucker Tool  to pucker up the mouth & chin...</p>  <p>or around the eyes...</p>
	<p>Use the Bloat tool  to make a really big brain... ...or ears</p> 

	<p>Use the Shift Pixels tool  to put some weight on... ...or just rearrange features...</p> 
	<p>The Reflection tool  makes copies of different areas of the picture, with interesting results.</p> <p>Keep stirring and see what you come up with!</p>
	<p>If you like your result, click OK</p> 
<p>To add Cartoon Bubble Text:</p>	 <p>Choose the Shape Tool.</p>

	<p>Draw in the Cartoon Bubble Box.</p>
	<p>Now, to put your words in, choose the Text Tool.</p>
	<p>Look at the top - the Text toolbar will show up - you can choose text style & size & color.</p>
	<p>Type in your words - make sure the color of the letters will show up on the white box.</p>

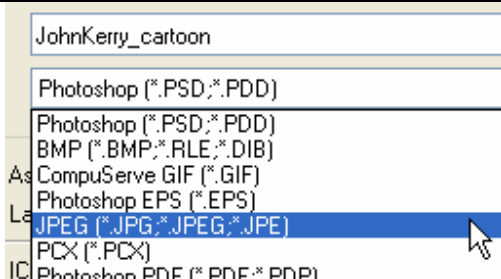

If you'd like your picture to look like you drew it, try one of the Sketch filters - this is the Photocopy filter.

TO SAVE:

Select File—Save AS

Be sure to save as a **JPEG**.

Save in the WFY folder on the W: drive with your name so you'll be able to find it.
