auntlee dot com

We're going to create Claymation Animations	We're going to take multiple pictures, then, using frame by frame animation, turn our pictures into an animated gif.
regarder paisants	Lots of cool movies & shows are actually Claymation – Nightmare Before Christmas, James & the Giant Peach, Chicken Run, Gumby & Pokey, The California Raisins
<image/>	 Tips: Keep shapes simple Keep action to 10 frames or fewer Put one object that doesn't move at the edge of the frame to use to keep the frames steady Make a lot of tiny changes between each frame to make your creations seem alive!
	Remember you can add titles to advance the story in post- production.

Macromedia Fireworks 3	
Got your disk with your pictures on	Go to:
it?	File –
	Open multiple
Start here!	
Important – be sure to choose the "open as anmation" option!!	Go to the Click on the files you want to add to the animation – in this case, probably "add all"
Dpen as Animation	choose the "open as anmation" option!!!
	It'll look something liKe this
	Find the "vcr"
I	controls and play
	the pictures!
